Toyahvale Men Go to Mexican Hot Springs for Rheumatism.

Fort Davis, Tex., Aug. 27.—A Mexican woman about 20 years old, committed suicide here by drinking carbolic acid. She was a daughter of Gen. McGuire. Rev. W. B. Boyce conducted the funeral service at the Methodist church.

Bill and Lee Kingston and Fayette Duncan, of Toyahvale, are in Fort Davis on their way to the hot springs at Candelaria, Mexico, with Mr. Lee, a brother-in-law of Bill Kingston, and Millie Kingston, a son, who have rheumatism so bad that neither of them can walk. Mr. Lee has had rheumatism for eight years and is perfectly helpless. Millie Kingston has only had rheumatism four months.

There was a dance at the auditorium last night in honor of the young women who expect to leave in a few days for San Marcos, Tex., to attend school at Caronell Institute. The young women are Misses Jesse Jones, Zora Finley and Alice Powell.

James Stewart's new residence is completed. It is quite an addition to the town.

Miss Minnie Bridges, of Luling, Tex., who taught school for A. G. Prude, who lives on a ranch six miles from Fort Davis, will teach again this year.

School will not open in Davis until the 12th of September on account of the teachers having to attend institute for one month, which is to be held at Marfa.

James Edwards and family have moved into their new residence, just completed.

There is an abundance of fruit and vegetables to be had at all times, raised in and around Fort Davis.

## FARM MEETING CLOSÉS

SESSIONS AT DALHART

This meeting was the fifth since the organization was formed.

LEE & WOODYARD, CONTRACTORS, CONSULTING ENGINEERS.

One of the most valuable additions to El Paso business circles brought on city's wonderful activity is the firm Lee & Woodyard, contractors and engineers of the Krakaer, Zork & Moyer, Schutz and Fewel buildings.

The firm in its work on these buildings has introduced many novel ideas of design and construction in its work which, though novel, are very successful. This is especially the Krakaer building, with its water tower and the concrete across the patio connecting the main and retail buildings.

The main contract on the Krakaer building was completed some time ago and the owners were so highly pleased with the class of work done by this firm that many extras were ordered and commenced in everything that could be used in that class of construction.

Building the Fewel building Lee & Woodyard established a record in point of time. The contract was signed on July 23, and on July 23, exactly 15 days commencing work, the building was finished and accepted.

Under their offices in El Paso, Lee & Woodyard also have one in Monterey, Cal. Their local offices are on the floor of the Herald building and are thoroughly equipped for doing their designing.

Two men have close call while hunting

Dalhart, Texas, Aug. 27.—Jos. Longhorn, a barber, and Walter A. Wolf, a druggist, of Dalhart, had a very narrow escape yesterday from a serious accident while out shooting. The two men were shooting from a carriage and in some way Longhorn's gun exploded.

Fortunately the barrel was facing the front of the buggy and the discharge tore a hole through the vehicle although a portion of the shot struck the horse, inflicting no serious injury.

## LAD IS ALMOST OVERCOME IN BARREL

Falls in Head First and Has Face Buried in Some Bran.

With his shoulders fastened in a metal feed tank, little Jimmie Lynch came near suffocating Friday evening at his home at 228 Prospect avenue.

The boy had gone into the back yard of the Lynch home to feed the chickens. The feed was kept in a metal barrel three feet in diameter. Not having a scoop the boy leaned over the edge to get the chicken feed when he lost his balance and fell head first into the barrel. His shoulders were fastened and his face buried in the bran.

His calls for help were not heard at first, being muffled by the bran. Mrs. Mundy, a neighbor living at 620 Prospect, noticed the boy's position and sent her little daughter over to investigate. Mrs. Lynch was notified and, with the assistance of neighbors, succeeded in freeing the lad. When taken from the barrel the boy fainted, but was soon revived.
